Board endorsement

Our Community and Our People: embedding our values

Reflections on consumer and staff feedback are a monthly focus for the Board, in addition to reflecting on a NMHS value. This month our compliment and complaint reflections were on the value of CARE. We discussed two stories of care provided by the Women and Newborn Health Service. The stories offer valuable insights and help us reshape health care to make experiences more positive for our consumers.

Presentations to the Board

The Board welcomed the Executive Director Women and Newborn Health Service (WNHS) to provide an update on the WNHS Culture Action Plan, which aims to shape and help the service thrive. The Plan integrates organisational values and behaviours into all ways of working to promote a positive culture and improve engagement and motivation across WNHS.

The Director of Aboriginal Health was also invited to address the Board and provide progress against the three priority areas of the NMHS Aboriginal Health and Wellbeing Strategy 2023 - 2025, which strongly aligns to the WA Aboriginal Health and Wellbeing Framework 2015-2030. The presentation highlighted the Aboriginal Champions Program, launched in December, which together with a range of Aboriginal-specific services, supports culturally secure care, as well as endeavours to attract and support a capable Aboriginal workforce.

Board Committee updates

The minutes and a précis from each of our Committees were provided by the respective Chairs.

Audit and Risk Committee

No meeting held in February.

Finance Committee

The Committee received presentations from Procurement, Infrastructure and Contract Management about

- Joondalup Health Campus Annual Notice 2023/24; and,
- NMHS's Medical Equipment Replacement Program, including projects due for completion in 2022/23, and planning for 2023/24 and beyond.

In addition, discussions focussed on performance, activity and staffing trends, including strategies to ensure financial sustainability.

People, Engagement and Culture Committee

The Committee welcomed Corporate Nursing who presented the Nursing Workforce Engagement Strategy, which will support a more contemporary and flexible workforce model.

In addition, colleagues from Health Support Services attended to provide an update on the Human Resources Management Information System, which will be rolled out across the NMHS in September 2024.

The People and Culture operational plan 'Making NMHS a great place to work', with its five priorities, was tabled.

The Committee also discussed a range of workforce reports.

Safety, Quality and Consumer Engagement Committee

The Committee welcomed Medical Head of Neurosurgery at Sir Charles Gairdner Hospital, who provided an overview of the service with a focus on safety and quality.

In addition, SCGOPHCG consultant pathologist provided an update on the management of hospital-acquired *Staphylococcus aureus* blood stream infections. The Committee was pleased to learn SCGOPHCG rates remain significantly below the national benchmark.

An update on preparations for SCGOPHCG's June accreditation was also provided.

The Board considered the monthly consumer, and safety and quality performance and trends, with focus on emergency access and length of stay.
